PROFESSIONAL EXPERIENCE

Outpatient Therapist

January 2023-Current

Neuropsychology and Concussion Management Associates (NCMA) Dover, NH

- Utilize evidence-based therapeutic approaches, such as Cognitive Behavioral Therapy and Solution- Focused Therapy, to guide client treatment towards effective results
- Assist in the implementation of individualized neuropsychological assessment recommendations by assessing barriers and helping to create solutions
- Conduct cognitive rehabilitation therapy to improve overall health and cognitive functioning for individuals who have experienced a traumatic brain injury or stroke
- Co-lead social skills groups to aid clients with diagnoses such as Autism Spectrum Disorder
- Perform neuropsychological testing and secondary clinical interviews as a technician for neuropsychologists in the Dover location

Testing Operations Coordinator

September 2020-January 2023

LifeStance Health, Inc (Dover, NH)

- Supervises process and operations improvements for the Neuropsychological & Psychological Testing Department in New Hampshire & Maine
- Generated the operational aspects of the ADHD Clinic, ASD Clinic, and Mood & Personality Disorder Clinic including client vetting, triage, and scheduling
- Created the neuropsychological and psychological testing waitlist to ensure proper clinician pairing, appropriate testing routes for clients, and an organized process for waitlist management
- Oversees staff involved in neuropsychological and psychological waitlist management
- Assist in new clinician onboarding procedures
- Trains neuropsychological testing technicians to ensure proper assessment administration, behavioral observations, rapport with clients, and precise test result documentation
- Maintains and orders neuropsychological and psychological testing materials and kits
- Produced an efficient system for physical documentation storage and retrieval
- Transitioned local testing offices to most current testing and scoring software platforms
- Uphold relationships with direct referral sources
- Attends seminars to remain current on all neuropsychological assessments and questionnaires

Clinical Mental Health Therapist Intern

October 2021-May 2022

Seacoast Mental Health Center (Portsmouth, NH)

- Conduct initial intake interviews to establish client goals for treatment and review current diagnoses
- Create individualized treatment plans to help establish an effective treatment path to achieve set goals

- Utilize evidence-based therapeutic approaches to assist clients with a variety of diagnoses including anxiety, depression, post-traumatic stress disorder, autism spectrum disorder, intellectual disabilities, and borderline personality disorder
- Coordinate additional resources for treatment including neuropsychological test referrals, group therapy, psychiatry referrals, and targeted case management

Psychometrist

October 2017 – September 2020

CORE Psychological Services PLLC (Pembroke, NH)

- Utilize organizational skills to guarantee proper inventory management of testing supplies
- Manage and record incoming patient material to document status of case
- Generate patient testing materials prior to administration to ensure efficient and organized testing session
- Assemble patient's parent, teacher, self, and/or informant questionnaire packets to broaden scope of observation
- Apply effective session management to identify and adapt to patient needs throughout testing
- Administer and score an array of neurological and psychological tests to assess patient's current cognitive and emotional state

Psychometrist

October 2017 – July 2019

Lifespan Neuropsychology PLLC (Barrington, NH)

- Formulate required testing materials prior to administration (age range 7-75)
- Conduct a broad range of testing, including memory disorders and strokes
- Maintain and report detailed behavioral observations to support case findings
- Utilize interviewing strategies to further evaluate patient
- Develop standardized report results in an organized submission to the doctor for final case documentation
